## Evaluation of Test Results

Lab Report No: HKHL0304346

Issue Date: November 12, 2021

Receive Date: November 05, 2021

Item Description: Ms Eco Bowl (Aqua/Black/Tan)

Rating: **Pass**

CLIENT: Walmart USA

BUYER: Joseph Dooley

DEPARTMENT: 14

BRAND: Mainstays (Private Label)

ORDER TYPE: Import

TEST TYPE: Production-Full Testing

VENDOR STOCK NUMBER: MS51100022257AQ, MS51100022257BL, MS51100022257VD

REASON FOR TESTING: Overall Quality Evaluation

COUNTRY OF ORIGIN: China

SUPPLIER NAME: Jia Wei Lifestyle Inc

HOST VENDOR NUMBER: 063022

SUPPLIER ID: 36220558

FACTORY NAME: Tzeng Shyng Industries (He Yuan) Co., Ltd

FACTORY NUMBER: 28059373

SOURCING OFFICE: Shenzhen

\*\*\* Please see the following pages for additional item information \*\*\*

1. General Conformity Certification / Children's Product Certification required: No

### ADDITIONAL INFORMATION

- Testing for the following requirements was conducted by UL VS Shanghai Limited, 1/F & 2/F & 3/F, Building #1, Room 103, Building 3, Caohejing Hi-Tech Park, Ju Xin Park, No.188 Pingfu Road, Xuhui District, Shanghai, Postal code 200231, P.R. China. +86-21-24228200.
- DISCLAIMER OF WARRANTIES: The supplier has submitted documents for one or more of the required tests as set forth in the Technical Worksheet(s). UL does not warrant the adequacy of such testing or accuracy of the information provided.
- It should be noted that only style number MS51100022257AQ (Aqua) was subjected to testing, including performance and durability.

	RATING	COMMENTS
<p><b>PRACTICAL USE</b>                      Demonstrates flat bottom with good stability                      (<i>no wobbling when placed on flat surface</i>)  <u>Glazed ceramic products</u>                      Demonstrates no evidence of leakage or seepage when filled with water and food colorant and allowed to sit for 24 hours on a clean white paper towel</p> <p><b>THERMAL PERFORMANCE</b>                      (<i>Walmart USA and Walmart Canada Products Only</i>)                      Product either intended or labeled "safe for oven use" (<i>or similar</i>) withstand 30 minutes in 450°F oven or maximum labeled oven safe temperature, with no loss in serviceability  <i>Note: Not applicable to plastic products without label claim</i>                      Test Temperature _____ °F</p> <p>Products with labeled claims or no labeled claims meet one of the following 3 as applicable</p> <p><b>1) Glass products with no labeled claims</b>                      Demonstrates good thermal shock resistance with no cracking, breakage or loss of serviceability or other damage, when hot water (<i>140°F / 60°C</i>) is poured into the container chilled to 45°F (<i>7°C</i>) for one minute                      _____ Y/N</p>	<p>Pass</p> <p>---</p> <p>---</p> <p>---</p>	<p>N/A - Not a ceramic product</p> <p>N/A - Not intended or labeled "Safe for oven use"</p> <p>N/A - Not labeled</p> <p>N/A - Not a glass product</p> <p>N/A - Not a glass product</p>

RATING	COMMENTS
	<p><i>N/A - Not a ceramic product</i></p> <hr/> <p><i>N/A - Not a ceramic product</i></p>
<p>---</p>	<p><i>N/A - Not a "Fully Tempered" glass product</i></p>
<p>---</p>	<p><i>N/A - Not a glass product</i></p>

**2) Ceramic products with no labeled claims**

Demonstrates good thermal shock resistance with no cracking, breakage or loss of serviceability or other damage, when boiling water (212°F / 100°C) is poured into the container chilled to 40°F (4.4°C) for one minute

\_\_\_\_\_ --- Y/N

**3) Glass or ceramic products with labeled claim more stringent than the tests above, and plastic products with labeled claim**

Demonstrates no evidence of cracking, breakage, loss of serviceability or other damage under labeled claim usage conditions

\_\_\_\_\_ --- Y/N

**MECHANICAL STRESS**

Glass product labeled "Fully Tempered"

\_\_\_\_\_ --- Y/N

Using a spring loaded mechanical punch fitted with a spherical tip, set the spring load to a level sufficient to fracture the test sample when punching the glass surface perpendicular to the tangent at the point of contact. Glass will shatter into small cubic pieces (dicing)

**SCRATCH TEST** (For Walmart USA & Walmart Canada products only)

Glass product is colored (Colored glass only)

\_\_\_\_\_ --- Y/N

The product withstands without fracture, using a tungsten carbide scribe, one scratch around the inside knuckle of the article followed by an "X" across the entire inside bottom surface of the article using sufficient pressure to penetrate the surface of the glass

<i>---</i>	<i>No additional claims</i>	<i>---</i>	<i>N/A - No additional claims</i>

**The following two notes only apply to household & automotive chemicals that require worksheet 1-4 FHSA for testing.**

1. A test report is not required for substantiation of "Free of" claims related to FHSA acute hazards (e.g. "no petroleum distillates, "solvent free" etc.) when such claims appear on household chemical products. A letter of Guarantee is acceptable to substantiate these claims. An FHSA acute hazard "free of" claim is any claim that would indicate to the consumer that the absence of a substance makes the product less hazardous (a hazardous substance is one that it is toxic, corrosive, an irritant, a strong sensitizer, etc.). A **Letter of Guarantee is Not Acceptable** for any chemical free claim other than as stated here.

2. FHSA regulated household chemicals products with "Free of" Claims that are not related to FHSA acute hazards must be substantiated with a test report, for example, but not limited to: "phosphate free" on a detergent - related to environmental hazards, or "formaldehyde free" - related to chronic toxicity.

**REGULATORY - LABELED CLAIMS - Federal Trade Commission & Various state laws**

**OTHER LABEL CLAIMS - Materials / Sterile / Sterilization / Licensing / Flushability / Non-Toxic / Safety**

This section covers all labeled claims which are not specifically covered elsewhere in this worksheet.

The table below shows verification methods for specific claims

LABELED CLAIM	PRODUCT	REQUIRED VERIFICATION METHOD
Non-Toxic Claim	All	Toxicological Risk Assessment must be submitted by the supplier
Sterile or Sterilization Claim	All	USP 71 report must be submitted by the supplier
License Claim	All	Supplier must submit documentation from licensor showing approval for licensing
Flushability or Septic or Sewer Safe Claims	For non-woven paper or non-woven textile products	The supplier must submit a test report to indicate the product has been tested and passed all seven test methods listed in the Int. Non-Woven Products Assoc. ( <i>Guidance for Assessing Flushability of Nonwoven Consumer Products</i> ).
Claims of impact on the structure or function of the body	All	Supplier must submit a claim substantiation study from a reputable source (e.g., academic study, peer reviewed journal, product study, etc.).
Material claims	All	For claims such as metal / wood / plastic only visual identification is used. For claims such as stainless steel / polyester the material is to be FTIR / XRF verified. <i>If the claim states a specific wood species then request a letter of guarantee from the supplier</i>

All labeled claims must be substantiated by in-house testing, **OR**  
 In lieu of testing, a passing test report (*dated within 1 year*) may be submitted by the manufacturer
